

From the President (January 2019)

To all the LARC community, I wish you a Very Happy New Year. This year looks like it will have many new events, programs, and other things for our members to be part of. I look forward to seeing all of you at our meetings, so we can get your involvement and your ideas for the future.

Our technical team is working hard to improve our infrastructure and equipment. Hopefully we will be able to have an even better performance for our repeaters going forward. If you wish to become involved with the technical team, contact Ron Schwartz (K2RAS).

We need someone to become our Membership Coordinator. The position is open and anyone interested can contact Charles Poch (KØITP). If you are interested, check with Chuck to see what the duties are and please consider joining the Leadership of our Club.

Our education committee is working hard to provide classes for all license categories. Please let your friends and neighbors know about the classes so we can get more people involved in the hobby. If you wish to help teach a class or have ideas on subjects you would like to see, please let them know. We appreciate the work that Kat (WØUM) and Bryan (AFØW) do in this area.

We, the Board, encourage any of you to participate in the club by joining one of our many committees, or consider starting a new one! Contact any Board member to get information. We also encourage you to use our Bulletin Board to send us comments and questions. We welcome your input. The major committees are: Technical, Membership, Publicity, and Programs.

I want to take this opportunity to thank everyone, especially the rest of the Board, for their support in 2018 and look forward to 2019 to work with everyone to make the Longmont Amateur Radio Club (LARC) one of the Best in the area. Thanks to those who came to our 2019 Christmas Party. We had a great time and fellowship with fantastic food, thanks to Doug (KEØSI).

73's and Happy New Year!

Starr Aldrich (NØAES)
