

LARC General Meeting Minutes

February 2021

The LARC General Meeting for February 2021 was held on Wednesday, February 17 at 7 pm via Zoom. Chuck (KOITP) opened the meeting at 7:00 PM, welcoming everyone. There were 35 in attendance.

Chuck announced a fox hunt in March or April and said it will include SSTV for practice. Should be lots of fun. Check the Club's website for more details.

There is a scheduled VE session on Feb 27 and everyone who would like to take a test must preregister. See the Club's website for more details.

The evening presentation was done by Jason Oleham (KM4ACK). Jason did a review of ham radio software available for the Raspberry Pi. It was an excellent overview of all the things hams can do with the Raspberry Pi. Interested hams can go to <https://github.com/km4ack> for links and ideas.

The meeting was adjourned at 9PM.

Respectively submitted,

Patrick Engstrom (W1PGE), Secretary
