

Longmont Amateur Radio Club

January 2022 General Meeting

January 19, 2022

Chuck started the meeting at 7 PM after a nice social group session that started at 6:30. Chuck (K0ITP) gave a summary of what's happening in the Club. Bryan (Af0W) reminded everyone of upcoming VE sessions. Doug asked for help for winter field day on January 29 which will be held at the Clover Building. A total of 41 hams checked in.

Mike Hickerson WB0MH did the evening presentation on the origin and evolution of call signs. It was a very interesting presentation, there is quite a bit of history in the evolution of call signs beginning in the 1920's. You can go to ae7q.com to see if a vanity call sign is available.
